The RETA team has spent the summer preparing another great series of professional development webinars! Join us to learn practical and effective technology skills to engage your 21st century learners. We are committed to providing you with "free", innovative webinars that fit into your busy schedule. Let us support you as you begin implementing technology tools and techniques in your 21st century classroom. Have a cup of coffee, invite a colleague, and raise your eQ with us. Please join us for our first webinar, Sept. 15, 2008, Intro and Whirlwind Tour of Web 2.0. You may attend by using the following link:
